

A Gift of Health Has Been Given in Your Honor

FAMILY HEALTH MINISTRIES

Sister Carmel Voltaire Women's Health Center
HAITI

Women in Haiti typically labor and deliver at home without medication or indoor running water. They are attended by medically untrained midwives. In the mountains near Tom Gato and Fondwa, a mother who needs medical attention would be carried for miles down winding, steep paths to a main road to wait for public transportation. Then she would have to travel for hours to the nearest medical facility. In the Tom Gato – Fondwa area, the infant mortality rate is high and it is not uncommon for women to die giving birth. The goal of the FHM Women's Health Center is to change the infant mortality and childbirth death rates. This gift will help bring basic as well as emergency healthcare to women in this area.
