

## A Gift of Sustenance and Loving Care for Abandoned Children Has Been Given in Your Honor

### MINISTRY OF HOPE

Lesotho, Africa

Our partner, Ministry of Hope, has grown from a nutrition program that sustained babies to a place where children are nurtured physically and emotionally until they can be returned to their families or adopted. On a recent visit to University Presbyterian Church the director, Mamanyane Mohale, impressed all of us with her empathy and knowledge of public health and nursing practices. She understands clearly the complicated needs of children who have been abandoned or whose parents have died. Our commitment to this program was reinvigorated. This gift will provide food, clothing, education and love for these vulnerable children.
