

**A Gift to Enable Haitian Farmers to Plant Trees and Provide Economic Stability
for Their Family Has Been Given in Your Honor**

HAITI REFORESTATION PARTNERSHIP

Leogane, Haiti

UPC has supported the Haiti Reforestation Partnership for many years. It is a major example of reforestation success in Haiti, having planted 15 million trees over the last 30 years. This project has enabled a group of some 750 farm families in Haiti to grow coffee under the trees, plant successful gardens and harvest timber for lumber sales. It has transformed over 5,500 acres from barren terrain to green landscape preventing flooding and landslides. Over time, this group of farmers has been able to build a church, a school, and a store as well as set up a microfinance facility for small businesses. Now they hope to take their success story to other farmers in Haiti. This gift will enable Haitian farmers to plant trees and provide economic stability for their family.
