

**A Gift to Provide A Home for Physically and Mentally Challenged Children
Has Been Given in Your Honor**

WINGS OF HOPE

**Home for Physically and Mentally Challenged Children
JACMEL, HAITI**

UPC's Haitian partners are among our longest and strongest connections, with visits from our Spring mission teams keeping the connection strong for more than 20 years. Wings of Hope provides a home and family for 35 disabled children and young adults, in a state-of-the-art facility in Jacmel. Their lives have been transformed in this new setting, but their education, round-the-clock care, extraordinary medical issues are supported by a trained and compassionate staff. This gift supports the staff in their remarkable work with children.
