

A gift has been given in your honor to...

Family Health Ministries

Health care for women & children in rural Haiti

Family Health Ministries (FHM) was founded over 25 years ago by a doctor at Duke University. **FHM's focus is to provide health care to women and children in Haiti.** Currently FHM's clinic in rural Tom Gato serves 200 to 300 patients each month with basic health and emergency health care, prenatal care and birthing services **in an area that has no other comparable facility.** Women in rural Haiti typically deliver their babies at home without medication or indoor running water. The infant mortality rate is high and it is not uncommon for women to die giving birth. The goal of FHM's Women's Health Center is **to reduce the infant mortality and childbirth death rates.**

HOW WILL MY GIFT HELP?

Your gift makes it possible for the clinic to have necessary medications for Haitian patients and up-to-date medical equipment there at the Women's Health Clinic. Your gift also makes it possible for the Women's Health Clinic to keep the Haitian medical staff salaried and to give them continuing training in best medical practices.
